70070 Handball Goal Post

Handball Goals 300 x 200 cm, made of special aluminium profile 80 x 80 mm. The projection of the goal is 1.40 m. The frame is red-white-stripes (alternative blue-white) powder coated. The net support tubes (40 x 3. mm) are fixed to the goal frame with stainless steel screw. Solid Corner Joints due to aluminium cast corners and long profile pins with double safety screw connections

Our integrated net hooks are used for the net suspension on the goal frames.

On the ground frame the net is held at the side by ropes and at the back by threading it around the crossbar. This also guarantees that the net hangs perfectly.

Integrated net hook system
