

10410 Water Ditch Hurdle

The water ditch hurdle is made from aluminium and a crossbar. There are two options for crossbars. Option 1 is a multi-layered laminated timber crossbar. Option 2 is a synthetic material one with an integrated aluminium core. The water ditch hurdle can be adjusted in height. The heights are 76.2 and 91.4 cm. The crossbar measures a total length of 3.66 m. The crossbar is a square 12.7 cm. The wood is painted with a special paint, which is long lasting even in a strong weather influence.

Order No 10410
Wooden Crossbar

Order No 10410/ SY
Synthetic Crossbar
