

Take Off Board Competition Alu/Synthetic

40155: take-off board lockable and height adjustable is made from an aluminium core with a synthetic finishing. It is made from special aluminium profiles which support the training as well as the competition inserts. The dimension fits perfectly the installation trough and is equipped with stainless steel vertical adjustment bolts to level the take-off board, and with horizontal ones to secure it to the installation trough, preventing it from moving during use. The take-off area is a wear and tear part and can be replaced separately. Once the take-off board is in the right place it can be locked to maintain the required position. The item is certified by the IAAF.

40156: The replacement take of area measures 200 x 1220 x 15 mm. If the take-off are is worn out by the spikes already the area can be removed with a few screws easily and replaced on demand.
