92200/92250 Protective Nets for Hockey Pitches

The protective nets for hockey pitches is made from knotless PP. The thickness is 4 mm. The mesh width 45 mm. The net contains a lead cord with a weight of 600 gram per meter. The net is available in assorted colours. The bracket for the net is made from aluminium

Huge problems are experienced on many hockey pitches with extreme damage to the fence and barriers caused by the impact or the hockey ball. The backstop net protects the fencing.
